Part A: Overview and Highlights

In the month of August 2023, Superior Homes Kenya continued its commitment to driving positive change through the Superior Homes Foundation. While this month mainly focused on restocking our partner schools with feminine hygiene products, we remained dedicated to our mission of empowering young girls through education and mentorship.

Part B: August 2023 Testimonials and Success Stories – “A Human Impact”

A testimonial from Clementine Maingi, Head of the Guidance & Counselling, Kinaanie Secondary School

“My name is Clementine Maingi. I am the Head of the Guidance and Counselling department at Kinaanie Secondary School. I am very grateful to Superior Homes for supporting our girls with sanitary towels. I joined this school six years ago and at the time, we had a lot of problems concerning menstrual hygiene. We were knocking on doors everywhere looking for sanitary towels and we are grateful you came to support us. Our girls are not missing school days anymore during their menstruation period because of the availability of sanitary towels. We hope that you continue to partner with us and may God bless you abundantly.”

Part G: Challenges:

- During our initiatives in August, we encountered some challenges:
 1. At Kanaani Girls:

The guidance and counselling teacher at Kanaani Girls reported that some girls found the confidence FHPs to be too thin. They expressed a preference for the *Soft Care pad*.

As a solution we will be engaging soft care FHPs manufacturers, Sunda Kenya

2. At Athi River Secondary School:

The guidance and counselling teacher from Athi River Secondary School reported that the school had experienced some cases of early pregnancies. As a response, the school is planning a community walk to sensitize the community about the importance of allowing girls to continue with their education. She invited the Foundation to partner for this event.

As a solution We will be engaging the school on further details about the walk and how we can participate.
